Rikkaiden ja köyhien kuilu kasvaa –  
saadaanko vetskari kiinni?

# Äärimmäinen köyhyys – 200v kehitys

## World population living in extreme poverty, 1820-2015

Extreme poverty is defined as living at a consumption (or income) level below 1.90 "international \$" per day. International \$ are adjusted for price differences between countries and for price changes over time (inflation).
